

Annual Report 2017-2018

In September 2017, ICP Europe officially got started. Since then we visited several countries in order to build up a network in those countries and to look for people acting as a catalysts.

Countries:

In France we made good contacts and Theo was invited to speak at a network meeting of several French pastors who all have the same desire: to magnify Jesus in an intercultural church.

In Sweden we are exploring if we can enter into a cooperative agreement with New Life Church, led by John van Dinther.

In Spain, Belgium, Switzerland, Austria, Finland, Norway and Denmark we made dozens of contacts; the coming years we will explore what may result from this.

In June 2018 we had a conference in Birmingham, where we welcomed about 100 people; we could encourage one another and learn from each other how leadership takes place in an intercultural context.

After intense contacts and visits back and forth, we found someone to be a catalyst for an ICP movement in England.

Cooperation with Other Organizations:

We made contacts with Exponential and are exploring whether a fruitful cooperation is possible.

The cooperation with MosaiX EU has been intensified.

Songs2Serve:

Songs2Serve has made contacts with Arts Release and a beautiful cooperation resulted from that, e.g. at the conference in Birmingham.

A few new songs were added to the database of Songs2Serve

Back-office:

The website was built and put online.

We invested in a course in social psychology to increase knowledge.

In order to limit travel we make a lot of use of Zoom, and this year we invested in good equipment for these Zoom calls.
